

Module: Accounting & Finance

Scope: Expenses, Payouts, Cashflow, Job Invoice Integration

1. Objective

Add accounting and finance features to the CN Terminal App, with a focus on **employee expense requests and approvals, payouts, cashflow tracking, and linkage to job invoices**.

2. Functional Requirements

2.1 Employee Expense Requests

- Employees can **submit an expense request** (e.g., fuel, supplies, transport).
- Fields: amount, category, description, date, optional job link, and receipt upload.
- Requests have statuses: *Pending* → *Approved* → *Rejected*.
- Finance Officer/Admin receives a notification when a request is made.
- Finance Officer can **approve or reject** requests and make payment.
- Approved requests automatically move to the **expense records**.

2.2 Expenses Management (Approved Only)

- Approved requests become **official expenses**.
- Categorization: Fuel, Materials, Operations, Miscellaneous.
- Linked to jobs (optional).
- Included in cashflow and reporting.

2.3 Payouts

- Manage payouts to staff, contractors, marketers, or third parties.
- Record details: payee, amount, method (bank, mobile money, cash), status (*pending, completed, failed*).

- Link payouts to jobs (optional).
- **Note:** Payroll is excluded from this scope.

2.4 Cashflow Tracking

- Inflows: Job invoice payments.
- Outflows: Approved expenses + payouts.
- Dashboard:
 - Net cashflow.
 - Trends (daily/weekly/monthly).
 - Account balance (calculated).

2.5 Job Invoice Integration

- Link expenses and payouts to invoices.
- Show job profitability (Revenue – Expenses – Payouts).
- Sync into financial reports.

2.6 Reporting

- Expense Report (with request/approval history).
- Payout Report.
- Cashflow Report.
- Job Profitability Report.
- Export in PDF/Excel.

3. Non-Functional Requirements

- Secure, encrypted finance data.

- Role-based access:
 - Employees = Request only.
 - Finance Officer = Approve/Reject + Manage reports.
 - Admin = Full access.
 - Responsive UI.
 - Real-time updates.
-

4. Deliverables

- Expense request workflow (employee → finance officer).
 - Updated expenses & payouts modules.
 - Cashflow dashboard.
 - Job invoice integration.
 - Reporting features.
 - Documentation & QA.
-

Updated Invoice – Feature Addition

Scope of Work

- Employee Expense Request & Approval Workflow
- Expense Management
- Payouts Module (non-payroll)

- Cashflow Tracking & Dashboard
- Job Invoice Integration
- Financial Reporting (exportable)
- QA & Documentation

Total Amount: GHS10,000.00
Additional GHS100.00 for storage
