

CURRICULUM VITAE

ERIC AMANKYIM

+233 555 155 972 | eamankyim@gmail.com

PROFILE

Creative and versatile **Graphic & UX/UI Designer** with over 5 years of experience delivering high-impact branding, user interface design, and digital product experiences. Strong background in both visual storytelling and user-centered design, with a proven ability to build cohesive brand identities, design scalable digital platforms, and collaborate with cross-functional teams. Expert in Figma, Adobe Creative Suite, and AI-enhanced workflows. Passionate about solving real problems through intuitive design.

WORK EXPERIENCE

Senior Designer – iCreations Global

March 2025 – Present

- Led branding and UI/UX design for platforms across sectors such as transport, education, and fintech.
- Delivered end-to-end design solutions including product branding, social media assets, web/mobile UI, pitch decks, and campaign visuals.
- Created scalable design systems in Figma; collaborated with developers for seamless implementation.
- Key designer for **AMC FlowPOS**, **EXAMSeat**, and the ongoing **Sabito Platform**.
- Produced interactive prototypes and maintained consistent visual language across platforms.

Graphic Designer / UX/UI Designer – iCreations Ghana

April 2019 – February 2022

- Designed **Mima's Pizza App** based on user interviews and competitive audits with students at University of Ghana.

- Conducted usability tests and redesigned the **Dzata Cement website** for a smoother UX.
- Compiled full **UI/UX guidelines and visual systems** for clients such as *Greenfarms Rubber Plantation Consult*.
- Researched trends and created **iFinder**, a digital tool for locating lost ID cards like Ghana Card and NHIS.
- Built interactive wireframes, user flows, and responsive UI designs in **Figma** and **Adobe XD**.
- Created full **brand identity and design guidelines** for numerous companies including:
 - **Greenfarms, Gorment by Grace, Gorgeous Glow, MicromedPIE, INKHAUSE, SNAPHAUSE, SHOPCINDY, DIDWA Ghana, CB2C (Côte d'Ivoire), Leap into Tech (Germany), Benice**
- Applied strong design principles including typography, layout, and color psychology in all visual work.
- Managed multiple client projects while maintaining creativity, detail, and delivery timelines.

User Experience Engineer – Sage Microsystems

November 2023 – February 2025

- Designed and prototyped mobile-first UIs with a strong focus on accessibility and visual clarity.
- Worked closely with engineers to integrate APIs and iterate on design based on real-world testing.
- Maintained scalable design systems and UI patterns.

Application Support Engineer – eProcess International (Ecobank Ghana)

November 2022 – October 2023

- Provided support for internal dashboards and backend banking systems.
- Designed internal tools and visual interfaces for better data visualization and faster resolution.

Chatbot Developer – EDC Investments (Ecobank Ghana)

February 2022 – September 2022

- Designed conversational flows and chatbot UI elements in Figma.
 - Integrated smart bot features with internal CRMs and improved user response flows.
-

KEY PROJECTS

- **SHAXI Brand Sample Designs** – Custom graphics created to reflect SHAXI's bold, urban brand energy.
 - **EXAMSeat** – WAEC-aligned platform with a clean exam-ready UI.
 - **AMC FlowPOS** – A fully branded rental and inventory system.
 - **MVI Tracking Platform** – Used by GPRTU and Ghana Highway Authority, including dashboards and vehicle tracking UI.
 - **Sabito Platform** – A referral management tool designed with scalable UI systems.
-

EDUCATION

BSc. Information Technology

University of Ghana, 2018 – 2022

CERTIFICATIONS

- **Google UX Design Professional Certificate**
 - **Graphic Design Masterclass (Illustrator & Photoshop)** – Udemy
 - **Principles of Secure Coding** – Udemy
-
